REAL CHOICE

Whether it's a living space or a working space, it should be just the way you want it to be. And it can be. We've invested much time and effort in taking a look at the latest trends around the globe and have selected a range of designs that we know will be just perfect for you right here.

YOU CAN THROW ALMOST ANYTHING **AT A FORMICA LIFESEAL WORKTOP**

We make Formica LifeSeal Worktops to handle the tough things life sometimes throws at you. With its exceptional resistance to wear, scuff, impact, heat, moisture and stains, a Formica LifeSeal Worktop provides an unbeatable, low maintenance, durable and dependable surface that's easy to clean and hygienic too.

120 YEARS OF QUALITY
YOU CAN COUNT ON

WHAT MAKES A

FORMICA LIFESEAL WORKTOP BEST?

With over a hundred and twenty years of history behind us, you can be sure that PG Bison manufactures Formica LifeSeal Worktops with the technology and know-how that'll guarantee they last and last. Whether it's an integral part of your dream kitchen, something smaller and more practical like a lab desk or installations throughout an entire development, we've got the right design for you with back-up you can trust. That means your investment will keep paying dividends for a long time to come.

The unique LifeSeal strip protects against moisture and is another reason your worktop will be in great condition years from now.
